

HOW IT WORKS

1. SYSTEM ACTIVATED

The button is pressed or the sensor is activated.

2. QUICK RESPONSE 24 HOURS A DAY

Trained local operators answer your call by name, assess the situation, and respond accordingly.

3. HELP IS SENT

Whether it's a neighbour, family member or it's an ambulance, we send the help you need and don't close the call until we know you are looked after.

WHAT SETS US APART

We are reliable, affordable and local, with over 30 years experience.

As part of our range of services, our focus is on people, not profit margins. Our equipment is installed and maintained by volunteers in your community and our Response Centres are located right here in the Maritimes. Funds raised help support local programs for seniors all across Nova Scotia.

LIVE MORE

Northwood 
INTOUCH

One in four Nova Scotians 65+ experience a fall every year.

After a fall, every second counts. That's where Northwood Intouch comes in.

Our automatic fall detector provides peace-of-mind for family members.

There are no contracts to sign and you can cancel anytime.

Local volunteers will install at a time convenient to you. Install fees stay with their service club for local community projects.

Funding assistance is available.

I used to feel anxious here by myself at night, but now I feel like I have someone with me and it makes me feel better. I cannot recommend it enough.

– Mrs. L. Burke, Yarmouth Co., NS

Automatic Fall Alert Button

Basic Button Wrist Band

Basic Button

MEDICAL ALERT OPTIONS

Our basic button sends a call for help when it's pushed.

Our smart button with automatic fall detection can be pressed when needed, and offers an extra layer of protection by being able to detect falls. When a fall is detected, a help call is sent automatically, even if the user is unconscious. This ensures greater peace-of-mind.

Stove Safety

Pill Dispenser

HELPFUL HOME DEVICES

We offer pill dispensers, a stove sensor that can shut off your stove automatically, bed alarms and alarm systems to detect wandering, intruders and much more. Should your circumstances change, we will customize the equipment to meet your needs. Designated caregivers are always kept in the loop.

SAFETY AND SECURITY

Northwood Intouch offers many integrated products to help you LIVE MORE at home. We are the only provider that offers such a diverse product range enabling people to live confidently at home, knowing that help is always available.

“When you don't know what's going on with your body and doctors are trying different medications, it's a safety unit for me. I feel safer with it”

– Mrs. S. Ralph, Halifax, NS
